I am requesting testing for possible gifted identification in the following areas. Testing for referrals received after April 13 will be conducted the following school year.

____Mathematics
____Science
____Reading
____Social Studies
____Superior Cognitive Ability/Creative Thinking Ability
____Visual and Performing Arts (If you check this, you need to complete the VPA nomination form.)

I understand that as of the 2011-2012 school year, Rootstown Local Schools provides gifted services through the regular classroom teacher. As of the 2018-19 school year, students in grades 3-12 are cluster grouped together. In grades 6-8, students are offered advanced course options in math and language arts. In grades 9-12, the district provides a variety of advanced options appropriate for gifted students, including Advanced Placement (AP) courses, credit flexibility options, College Credit Plus (CCP), and honors classes. Early entrance to kindergarten, subject– and whole-grade acceleration, and early graduation are also options for students in Pre-K-12.

Signed _____ Date _____

Please submit all requests for gifted testing to:
Rootstown Local Schools
Robert Campbell
Director of Teaching and Learning
4140 State Route 44, Rootstown, OH 44272
